Hands On Essentials - Data Applications

Issued by **Snowflake**

The Data Applications badge is the second badge in Snowflake's Hands On Essentials Series. Users earning this credential have demonstrated an ability to use Python to read from and write to their Snowflake database tables. Badge earners after April 2022 built a Streamlit application which can be viewed as part of their GitHub repository. Please contact the badge earner for details. Badge Earners Prior to May 2022 built an IOT data pipeline using SoftwareAG tools.
